ESET®

## MULTI-DEVICE
SECURITY

*Flexible, simple, award-winning
Internet Security for all your devices*

ENJOY SAFER TECHNOLOGY

ESET MULTI-DEVICE SECURITY

Easily secure all your devices
Protect your family's Windows®, Mac® and Android™ computers, smartphones and tablets using one license.

Protection from the unknown
Get powerful antivirus and antispyware for protection against targeted attacks. Thoroughly scan all downloaded files, emails and apps.

Track and locate your missing device
Locate your missing laptop, tablet or smartphone on a map. Monitor and document any unusual activity taking place or send a message to the finder so you can help recover it faster.

Protect your family on the Internet
Shield your kids from exposure to potentially offensive content by blocking more than 20 website categories. Control incoming and outgoing calls to keep children's phone usage and your bills in check. Educate your family with complimentary ESET Cybersecurity Training.

Keep your private data safe
Protect your online identity from cyber criminals by keeping your laptop invisible on public Wi-Fi®. Block fake websites from acquiring personal information with Anti-Phishing.

Stay safe on social media sites
Extend your security to Facebook® and Twitter. Scan for malicious links, see what information is visible to the public and determine which apps can access your private data.

Split the security as you need.

> "I use ESET Antivirus on my PC and Mac for home, work and traveling. It works quietly and behind the scenes. Since switching to ESET several years ago, I've not had any intrusions."
>
> **DEBRA G., ESET CUSTOMER**

Virus Bulletin award
10-year consecutive string of VB100 awards for detecting all in-the-wild viruses.

✿✿ PCMag
Readers voted ESET as the best antivirus software company.
